Your website check-up

Harborline Painting Co. · Cape Carteret, NC · harborlinepainting.example · Checked Nov 21, 2026

Sample report, fictional business, based on real test results.

Hi neighbor! We check local business websites so you don't have to. Here's what we found. **The good news: your site is up, quick on phones, and nothing urgent jumped out.** Just a few small fixes.

Overall: Good, with 3 small things worth fixing (nothing urgent).

Scorecard

Up and working	● Good	Your site loaded quickly and all 15 pages we checked opened, with no broken links on the homepage.
Speed on phones	● Good	Scored 81 out of 100; the main content shows in about 5.0 seconds on a slower connection. Images could be about 1.5 MB smaller.
Security and safety	● Worth a look	Strong encryption (A+ grade), but the "www." address's certificate expired Nov 15, 2026, so it shows a browser warning.
Email protection (spoofing)	● Worth a look	Email records are set up, but the anti-spoofing rule is "watch only" and doesn't yet stop look-alike emails sent in your name.

Good = all set · Yellow = worth a look, not urgent · Red = needs attention soon

Top 3 things to fix

1. **Renew the "www." certificate (or point www to your main address).** *What this means for you:* people who type "www" land on your site, not a warning page.
2. **Switch the anti-spoofing email rule (DMARC) from "watch only" to "block."** *What this means for you:* look-alike emails pretending to be you get stopped.
3. **Add the remaining browser safety settings (security headers).** *What this means for you:* visitors' browsers get extra built-in protection.

What we do

- **A monthly check** of uptime, speed, security and email setup.
- **A plain-English summary** each month. No jargon.
- **All from the outside,** so we never need your passwords.

What we offer

- **One Time Free Check-up: this page, on the house.**
- **Monthly monitoring:** $19/month, includes this report every month, plus alerts if your site goes down, gets hacked or redirected, or its certificate is about to expire.
- **Fixes:** a simple flat quote up front, only if you want us to take care of them.

Already have a web designer? Just hand this page to them; it's theirs to use.

If nobody gets to it, give us a call and we're happy to help. No pressure, we're here if you need us.
